If it were not for certain supplies obtainable from the United States, such as high-octane gasoline used in bombing planes, Japan would not have been able to carry on the war with China as long or as successfully as has been done, said Scott.

The motion pictures showed scenes along the "war road" over which supplies have been carried from scaports in French Indo-China into the interior of China, in American-built trucks. Other scenes showed the exporting

Kohler said Monday that in the event Sonnenberg could not make the Antioch date, he would select an opponent for McMillen from a group such as, Kola Kwaraini, the Russian Cossack, Rudy Kay, Ruffy Silverstein, Eddie Virag, Fredrick VonSchact, Gorilla Grubmeier or Hans Schnable.

Pinned the "Strangler"

Sonnenberg, who wrested the title rom Strangler Lewis in Boston several years ago is making his home in Bob Hughes Gets Belvidere where his brother resides. "Gloomy Gus" is one of the most deceiving wrestlers in the game today. His short stocky build, rushing tactics and billy goat butt are still causing much consternation among the pretzel eared bonebenders. Sonnenberg popularized the flying tackle type of wresting which McMillen claims to have invented. Since both men are experts and exponents of the flying tackie, there is some speculation as to what collide.

The excellent boxing bouts on last year's show caused such favorable comment, that the committee decided to have three or four three-round bouts on this year's card, and Coach Childers has agreed to have some of nis best boxers meet suitable opponents from Grant and Libertyville.

GETHSEMANE: TRIUMPH THROUGH SURRENDER

LESSON TEXT—Matthew 26:36-46.
GOLDEN TEXT—Not as I will, but as thou wilt.—Matthew 26:39.

Surrender brings victory. The world would say that our

statement is not true; surrender is the mark of defeat. It is the final chapter in a story of struggle against impossible circumstances, against a stronger power, and finally of giving up to accept the bitter sorrow of subjection and sometimes destruction. But again we say, the way of strength is through surrenmeasure of victory is the degree of surrender. Full submission to Christ means complete triumph for the Christian. The Lord Jesus does not ask His disciples to walk a way which He has not trod Himself. He which He has not trod Himself. He went the way of full surrender to the will of God in the garden of Gethsemane. We observe five things about this way of "triumph through surrender." It was

I. A Way of Sorrow (vv. 37, 38). He was exceedingly sorrowful unto death. It was not an easy thing that the Saviour did as He fulfilled the will of God the Father in the garden. We know that no man ever sorrowed as He did on that day, for only He bore the sins of the world. There is, however, a lesson here for us who are His disciples. If this is the road the Master trod, / should not His servants tread it still? The way of victory for us is through surrender.

II. A Way of Self-Denial (vv. 39, 42, 44).

Self-denial does not consist in depriving one's self of some little cherished luxury. It means the denial of self, namely, that self-will is put aside and God's will is supreme.

was no "easy thing for Jesus to carry out the Father's will and to go to the cross. He was sub- of Tibet, the world's only theocracy, missive to that will; yet in this hour of anguish in the garden, when the unspeakable horror of what lay ahead almost overwhelmed His soul, it is a six-year-old Chinese peasant boy, Ling-erg La-Mu-Tan-Chu, whose elaborate enthronement reached the soul, it is a six-year-old Chinese peasant boy, Ling-erg La-Mu-Tan-Chu, whose elaborate enthronement reached the soul, it is a six-year-old Chinese peasant boy. it means much to say, 'Not as I will but as thou wilt' " (Dr. B. L. Olmstead). It may be a hard thing to do, but by His grace we too may say, "Thy will be done."

III. A Way of Loneliness (vv. 36,

There were three disciples with Him as He entered the garden, and their very presence reminds us how very much alone Jesus actually was. There were twelve with Him in the upper room, but one went out into the darkness to betray Him. Eleven came with Him to the gate of the garden, but only three came into the garden with Him. Even they could not go all the way with Him. He prayed and agonized alone, and the three who were near at hand failed Him and slept through the dark hour when He most needed their fellowship in sympathy and

Alone? If the Master had to walk the way of surrender alone, let no Christian expect that it will be otherwise for him. Let us thank God for every blessing of true fellowship, but let us not be surprised if we are often called to walk alone -with God.

IV. A Way of Betrayal (vv, 45, 46). "He is at hand who doth betray me" "into the hands of sinners." One feels that the cup of the Master is already overfull without adding betrayal by one of His own, but there it is, a dark and tragic reality. Note with what peace and assurance Jesus goes to meet it. The victory has already been won in prayer, in communion with the Father, and

in submission to His will. No one of us will ever know such a betrayal as that of our Lord, but we do face similar crises as we go on in a life of devotion to God's will. We do well to remember the experience of Christ that we be not overwhelmed by the treachery of men and that we prepare ourselves to meet it with the power and grace of our God.

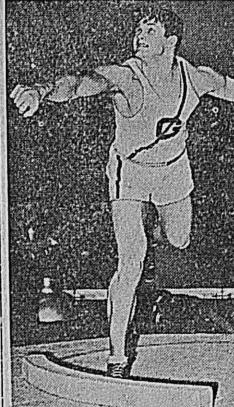

V. A Way of Divine Fellowship and Blessing (vv. 39, 42). The way of surrender is a glorious

and delightful way to go. But, some one may ask, have we not been talking of sorrow, self-denial, loneliness and betrayal? Yes, but even these things may become the means of blessing if God is in them.

Though no man stood by our Lord in His experience in Gethsemane, the Father was there. Jesus talked with Him, prayed to Him, trusted Him, yielded fully to His will, and the result was peace and blessing. We read in Luke 22:43 that an angel also came and strengthened Him.

Merger of Two Wars Feared If Allies Send Aid to Finland; Poles Drill Big Army in France

(EDITOR'S NOTE-When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.) Released by Western Newspaper Union ____

U.S. and the Wars: After Six Months

Six months had passed since Germany invaded Poland, since President Roosevelt summoned congress to safeguard U. S. neutrality. Good intentions notwithstanding, the U. S. found itself deeply concerned with Europe's wars-politically, financially, economically, socially. Items in a week's news:

During senate hearings on the claim they need all their foreign FBI went to work. exchange to buy munitions. One possible remedy is an excise tax on munitions exports which might be paid to farmers.

U. S. exports exceeded imports in January by \$126,589,000, the larg-est margin in recent years. One Russia, from whence it may be unhappy trend: Gold and silver holdings of the U.S. piled higher and higher as foreign nations used this method to pay for their pur-

The U.S. had two British block-ade problems: (1) Britain sought Canadian co-operation in establishing a contraband control system in the Pacific to stop U. S. rubber going to Germany; (2) Pan-American clippers, avoiding British mail seizures at Bermuda, decided to fly direct from the U.S. to the Azores and Lisbon.

Ironed out were senate-house differences in the measure to raise purchases by Finland.

Western Front. Increased patrol and artillery activity was acknowledged by both high commands. Heavy German troop movements were reported near Luxembourg. and the Nazis were said to be extending the Siegfried line along the Belgian and Dutch frontiers.

sive nights, while Nazi planes were chased away from Paris.

At Sea. Allied warships, massing in the Arctic sea to block Russian-German sea commerce, sank two Nazi merchantmen near the Finnish shore. An undenied report of naval activity off Petsamo was considered by observers as the first sign that Europe's two wars may merge.

Behind Scenes

Somewhere in France correspondents discovered Gen. Wladyslaw Sikorski of Poland drilling almost 100,000 troops—peasant boys, students, miners and professionalsmen who escaped from Poland after Germany's blitzkrieg. With France's

NAMES in the news . . .

At Little America, Adm. Richard E. Byrd reported he and two assistants had mapped the long-unknown South Pacific coast of Antarctica, discovering a vast mountain range and an ice-covered island 80 miles offshore.

(At London, ex-Premier David Lloyd George scored England's woefully poor food production, claiming that two and a half million acres which produced 1,000,000 tons of food in 1914 are now overgrown with weeds.

At London, it was rumored Maj. Kermit Roosevelt, son of the "Roughrider," would leave his British army post to lead an international brigade against Russia in Finland.

Arriving in the U.S. for a threeweek visit, Archduke Otto of Austria hoped to arouse sentiment for his enthronement-provided Germany loses the war and Austria is restored.

@ Died: Gen. William Graves, 74, who commanded U. S. expeditionary forces in Siberia from 1918 to 1920.

Congress' Work Passed by the House: (1) The senate-approved bill to give Finland a \$20,000,000 non-military loan; (2) a \$60,000,000 appropriation to keep crop control checks flowing to farmers.

Proposed: By Sen. Robert F. Wagner (D.-N. Y.), legislation to regulate investment companies on behalf of the Securities and Exchange commission.

Sent to the Senate: The houseapproved resolution to extend for three years the administration's reciprocal trade program.
Argued in Both Houses:

1940 census, scheduled to start April 1. While Census Director W. L. Austin moaned, Republican orators urged constituents to risk penalties by not giving cen-sustakers "personal" information which is "none of their damned business."

Maginot line already well manned. observers had reason to wonder where Poland-in-exile will send its first five divisions which will be ready for action by midsummer. Finland seemed the best bet, for behind a ceaseless barrage of rumors and counter-rumors flooding Europe this month, could be seen an evernarrowing breach between the two

Both London and Paris reported it was certain the allies would land an army at far-north Petsamo, supplementing spasmodic aid which has dribbled to the Finns through Norway and Sweden. In the light of this possibility, German overtures in Scandinavia seemed ominous.

The overtures: Nazidom has sought a Finnish-Russian truce to stop consumption of Russian war materials and thus get more for herself; Hitler has also threatened intervention on Russia's side if an allied expeditionary force is sent to Finland's aid. He had also hinted to Norway and Sweden that it would be best for them to block allied aid to the Finns if they wanted to escape the war. But at the same time he had not overlooked the value of Scandinavian friendship, for Swedish iron ore would be cut off if the northern countries joined Britain and France.

Peace Gesture

Despite gloomy news, irrepressible peace rumors still bobbed to the surface. In London Lord Tavistock, chairman of the British council for Christian settlement, said he had received a set of peace terms through Germany's legation in Dublin. These he had passed on to Foreign Secretary Viscount Halifax. The terms: (1) Independence to Slovakia; (2) independence to Poland, with an outlet to the sea; (3) a plebiscite in Austria, maybe; (4) disarmament, if others will do likewise; (5) German re-entry to the League of Nations, provided Britain doesn't continue to run the show. To most observers, they looked like the same old set of peace terms brightened with a new coat of paint.

Mr. Welles Goes Calling

Hastily concluding his preliminary discussions in Rome with Benito Mussolini, Undersecretary of State Sumner Welles hurried to Switzerland and thence to Berlin, What had been advertised as a pure-andsimple fact-finding expedition was developing (as everyone had expected) into a queer peace offensive. Premier Mussolini had evidently told Mr. Welles his terms, and it was widely advertised that Adolf Hitler would do likewise. Everyone, obviously, would talk tough.

Not only must the present number of guns and planes at Panama be doubled, said the President, but a long-range defense program must be arranged to extend throughout Central America

and as far south as Ecuador, Colombia and Venezuela. Reason for this, he said, was the need for a better opportunity to discover an attacking force at a much longer distance from the canal. Even the new Caribbean fortresses were inadequate protection from the

east, he maintained. An interested observer was Augusto Boyd, president of little Panama, whose country will profit by heavy U. S. expenditures in the Canal Zone. Said he, after a conference aboard the Tuscaloosa; "I think we're all in the same boat. Latin America must co-operate with the United States in defense of the canal . . . We are in there 100 per cent as far as co-operation is concerned . . ."

DOMESTIC:

Nose Count

Of all questions in the 1940 census, none has drawn more fire than those regarding personal income. When census takers begin their rounds April 1 many a citizen will probably refuse to answer these questions despite the threat of a fine. Adding weight to the G. O. P.sponsored campaign of protest, Miss Catherine Curtis of New York appeared before the senate sub-committee on behalf of women investors. Said she: Congress will have to enlarge the jails to house protesting women if income questions are not stricken from the census.

Nevertheless Census Director William Austin went ahead with his plans, hoping his nose-count will not be completely sabotaged. Meanwhile the department of commerce announced creation of a new national income division which will "analyze and interpret the flow of income from various sources and its expenditure in the final analysis for goods and services." For its source material the division will probe every source of personal income data available, including social security records, bureau of internal revenue-and the 1940 census.

LABOR:

Biggest Election

At Washington the National Labor Relations board issued orders for the largest collective bargaining election ever held. "As soon as possible," approximately 150,000 employees in 59 General Motors plants in 11 states will cast their ballots, the principal issue being affiliation with C. I. O. or A. F. of L.

POLITICS:

Victory in Ohio

Both Republicans and Democrats conceded that Ohio's six-county seventeenth congressional district was a sounding board for Ohio's political cross-currents. In that district, Republican J. Harry McGregor was fighting it out with Democrat Byron Ashbrook, nephew of the late Rep. William A. Ashbrook.

In the twenty-second district a Republican victory was not unexpected, provided Ohio would send a woman to congress. Hoping it would, socially prominent Mrs. Frances Payne Bolton sought to succeed her late husband.

When the votes were in Mrs. Bolton found herself elected. So did

Republican McGregor, which was a significant victory if the prophetic seventeenth distric' wasn't fool ing. At Wash ington the G. O. P. con gressional campaign committee

hailed Ohio's results as a sign that "the tide of national sentiment continues strongly toward a Republican sweep next

November." Other political news:

1 Four Democratic senators (Massachusetts' Walsh, Iowa's Herring, Michigan's Brown and Indiana's Minton) indicated they could conceive of an international situation which would make it wise to nominate and elect Franklin Roosevelt for a third term.

Thomas E. Dewey had his name filed in the Nebraska G. O. P. primary, where he will fight it out with Michigan's Sen. Arthur Vandenberg. Wice President John Nance Garner let his name be entered in New
